Subject: Regional Bahai Council member to serve as resource to the Sarasota, FL cluster

To the Sarasota, Florida Cluster Area Teaching Committee and Core team members,

Beloved Friends,

Our most heartfelt greetings to you!

We have come so far this last year in winning the goals for our region. Some clusters have been advanced and others will soon follow. Your Council remains ever mindful of your brilliant efforts at the grassroots and will continue to aid you every way possible.

The South Central Council has assigned its members to serve specific goal clusters in our region. The Council members will endeavor to support and accompany the friends in the goal clusters by:

1. Engaging in direct teaching, including door-to-door teaching and firesides, primarily during the cluster's Expansion Phase.
2. Making home visits to some of the veteran believers in an effort to mobilize them as additional human resources for the cluster as well as home visits to the community of interest to share with them Anna's presentation and invite them to become Baha'is.

Having been briefed by your Auxiliary Board members, the visiting Council member's effectiveness in the cluster will be enhanced if they are also taken into your confidence regarding the human resource needs of the cluster such as active teachers, children's class teachers, etc. The Cluster Development Office happily introduces Council member, Dr. Hoda Hosseini, to your cluster.

Sarasota cluster - Hoda Hosseini (Reflection Meeting: 4/10 and Expansion Phase: 4/10-4/24)

The dates above are the dates that we have on file for each cluster's next Reflection Meeting and Expansion Phase. If these dates have changed, please let us know. Hoda will make every effort to coordinate her visits during the Expansion Phase dates if possible and/or may be able to visit at other times, as well.

The Council looks forward to working shoulder to shoulder with the friends in our clusters to win the goals of the Plan!

With loving and tender greetings,
Aniela Costello
